Installation Approval Form

Thank you for choosing **Borealis Broadband Internet Service!**

In order to ensure you have the smoothest installation and service experience possible, if you do not own the residence or building in which you intend to have Borealis Broadband service installed, we require that you obtain the building owner's approval prior to any installation.

Installation of Borealis Broadband service may involve modifications to the residence/building/structure. While these modifications are usually minor, our standard professional installation may include drilling holes in order to run cable and attach equipment securely to the outside of the structure. Any such type of modification may be forbidden pursuant to the terms of your lease/rental agreement or may require pre-approval by the landlord.

Please be advised that landlord approval is required with multi-tenant apartment buildings.

You should carefully review your lease agreement to determine if you have the right to make such modifications. If landlord approval is required, please request that the landlord, or its authorized representative, complete section 1 below to acknowledge authorization for the installation and provide this signed form to the Borealis technician at the time of installation.

In the alternative, if the landlord verbally gives you permission or if landlord approval is not required pursuant to your lease or rental agreement, please complete section 2 below.

By providing this signed form to your professional installer, you are granting Borealis Broadband permission to install your new service and to de-install service equipment after your Borealis service agreement has ended.

This signed permission form releases Borealis Broadband (including any installation technician) from any liability related to damages your landlord may claim as a result of an alleged violation of your lease/rental agreement as it relates to the installation of your new Borealis Broadband service.

Should your landlord only approve the Borealis installation subject to special requirements that make the actual install more expensive (or exceeds what Borealis offers as part of its standard professional installation), you will be asked to pay a corresponding charge, to be agreed upon by you and Borealis, for the additional services.

In addition, please remember that technical issues may still prevent installation of your Borealis service. Though this is rare, challenges such as a poor line-of-sight to the transmitting facility, inadequate grounding availability, or structural concerns/issues can prevent installation of Borealis service, in which case no financial obligation on your part will be required.

Please complete Section 1 or 2 below:

Section 1

I, _____ (landlord/authorized landlord representative) hereby authorize

_____ (name of tenant/Borealis customer) to install Borealis Broadband Internet

Service at _____ (tenant address).

Signature of Landlord /authorized landlord representative

Date

Section 2

Installation of Borealis Broadband Service at _____ (address) has been verbally approved by my landlord or approval is not required pursuant to my lease or rental agreement.

Signature of Borealis Broadband customer

Date
